NOTE: The intention of the retreat or counseling is to see if you're already very good relationship can become even better. I am a very inclusive, not-judgmental pastor and support couples to have the best life they can together.

Also, all pastors require some pre-marital classes or counseling. The state of MN gives a discount on wedding licenses for couples who complete a certain number of hours in pre-marriage work, since research demonstrates couples are more likely to stay together for life if they do.

I will send you the three best ceremonies I have ever seen in my career and encourage you to cut, paste, or even find another ceremony to make the wedding uniquely reflect the two of you.
